

HSEQ POLICY

Environmental Management

M/CONSTRUCTION

A DIVISION OF M/GROUP

M/Construction is committed to environmental sensitivity and sustainability in our business activities of design management, construction and maintenance services for residential, commercial, retail and government building projects.

M/Construction's core Environmental Management objectives are:

- Integrate the consideration of environmental concerns and impacts into all of our decision making and business activities.
- Investigate & practice environmentally sound work methods to minimise the release and reduce greenhouse gas emissions from our operations.
- Protect biodiversity and land/soil quality through the effective and efficient transport and recycling of controlled waste.
- Promote the efficient use of materials and resources throughout our business including water, electricity, and raw materials.
- Minimise the generation of site and office waste from all activities and across all business divisions.

As evidence of this commitment M/Construction will:

- Integrate environmental considerations into our business planning and operations to protect the environment, prevent pollution and minimise other negative impacts, and generate positive outcomes where possible.
- Develop and implement an EMS (Environmental Management System) based on the ISO 14001:2015 International Standard.

- Meet and comply with our legislative and regulatory requirements.
- Measure various aspects of our environmental performance, and seek to continuously improve our outcomes.
- Set objectives performance improvement and assign responsibility to members of Senior Management.
- Provide employees with information and training to help them make environmentally sound decisions and work in an environmentally responsible manner.
- Communicate information regarding our EMS and performance to customers, employees, suppliers, and the community via our web site and or other appropriate means.

This policy and our Environmental Management System (within the integrated Health, Safety, Environment and Quality (HSEQ) System) will be regularly reviewed by Senior Management to ensure continued effectiveness and improvement.

Any suggestions that may assist us to achieve our aims are welcomed by all parties.
